YOUR COACHES

DA

Deng Awak

Leads the camp, all three days

Talata head coach and founder. Played pro in Canada, Lithuania and Denmark, including BK Amager in the Basketligaen, and captained Mount Royal University in Calgary. Has coached in four countries.

JN

Jordan Naughton

Runs the camp floor, all three days

Talata Head of Academy. Played NCAA Division 1 at the University of Wyoming and pro with BK Amager. Head coach of Talata U15, U17 and U19.

On Monday and Tuesday, coaches from other clubs join for our Coaches Clinic. They run stations and take game teams with Deng and Jordan. Every visiting coach who takes a team has a børneattest (criminal record check).

THE MEASURING

On Monday every player is measured with the tests NBA scouts run at the Draft Combine.

Height	**Wingspan**	**Standing reach**
Vertical jump	**Lane agility**	**Timed shooting**

The numbers go into your child's written evaluation and stay with your family. We never post a player's numbers.

FILMED GAMES

Live play on Monday and Tuesday and every game on Wednesday is filmed from a fixed camera. Players watch their own footage the same day.

After the camp we package your child's game film with the written evaluation and send it to you. It is yours to keep and to share with coaches, scouts and schools.

We also use camp clips in club posts, never with a name or a shirt number. Tell us if your child should stay out of them.

THE WRITTEN EVALUATION

On the last day each player gets a written evaluation from Deng and Jordan: the numbers from Monday, what they saw on film and in the games, and what to work on next.

The numbers, the film and the evaluation are what a college or academy coach asks to see. This camp gives you all three in one place.
